

tex_cache::tex_cache

```
graph LR; A[tex_cache::tex_cache] --> B[cache_config::get_num_lines];
```

A diagram showing a call from a function to a static method. On the left, a gray rectangular box contains the text 'tex_cache::tex_cache'. A blue arrow points from the right side of this box to the left side of a white rectangular box on the right. The white box contains the text 'cache_config::get_num_lines'.

cache_config::get_num
_lines
