

GPUTrafficManager::Init

```
graph LR; A[GPUTrafficManager::Init] --> B[TrafficManager::_ClearStats]; B --> C[Stats::Clear];
```

The diagram illustrates a three-step process flow. It begins with a gray rectangular box containing the text 'GPUTrafficManager::Init'. A dark blue arrow points from this box to a white rectangular box containing 'TrafficManager::_ClearStats'. A second dark blue arrow points from this middle box to a final white rectangular box containing 'Stats::Clear'. All boxes have a black border, and the arrows are solid dark blue lines with triangular heads.

TrafficManager::_ClearStats

Stats::Clear
